

Realistic Quality Solutions Relocates to New Offices in Draper, Utah

DRAPER, Utah - April 25, 2024 - Realistic Quality Solutions, a leading provider of quality and regulatory compliance services for the medical device industry, today announced the relocation of its corporate headquarters from Florida to new offices in Draper, Utah. The move positions the company closer to the growing hub of medical device and life sciences companies along the Wasatch Front.

"Our new location at 138 East 12300 South in the heart of Utah's flourishing medical device corridor allows us to better serve our clients in the region and nationally," said John Sawyer, President of Realistic Quality Solutions. "We're excited to tap into the rich talent pool of quality and regulatory professionals as we continue expanding our service offerings."

Our new location will also serve as the company's base of international operations, supporting quality system implementation, regulatory submissions, auditing, and other compliance services for customers seeking assistance with FDA regulatory compliance.

Since its founding in 2010, Realistic Quality Solutions has experienced rapid growth, driven by increasing demand for specialized expertise in navigating complex FDA regulations and international standards. The company's client base spans medical device manufacturers from startups to Fortune 500 corporations.
